

ROYAL GARDEN OS RAJNAGAR

INAUGURATION CEREMONY - PATERIYA KA BAGH

As a major milestone, the Inauguration Ceremony of the 'Visitor's Center' for the Royal Gardens of Rajnagar was held on April 30th, 2022 in Pateriya ka Bagh, Rajnagar, Madhya Pradesh. The opening ceremony recognised the collective efforts of ITRHD Belgium, Dharatal and the local community in restoring the magnificence of the Royal Gardens of Rajnagar.

The Visitor Centre at Pateriya Ka Bagh, built using conservation techniques, with local crafts person preserves not only the heritage aesthetics of the building but is also in line with the Project's mission of sustainable development. Various elements of 18th and 19th century Bundeli architecture have been incorporated into the design of the Visitor's centre like the ornamental Jharokha (balcony) in the Kothi above roof-level on the wall, inspired by the original Jharokha in the older structures and a staircase which was inspired by the stepwell which is typically found in Bundeli gardens. Both the features have added to the aesthetic beauty of the garden with a brilliant display of light and shadow for the visitors.
